The Hot Seat

Sebastian de Cabo Portugal

How was it studying in England?

First year was hard, because I wasn’t used to living away from the small island. The course felt a bit uncreative so in my spare time I made videos, a web series and a play with some friends. The series won two prizes at the National Student Television Award. So crazy!

What is your biggest source of inspiration?

Movies - any type, from sci-fi to classics. Art and fashion also inspire me. I like things that are unconventional. It needs to have a twist.

What would be your dream project?

Designing a sex toy. It’s the perfect blend of form, function, material and ergonomics. I wanted to do one at University [London] but the teachers said no.

If/when the zombie apocalypse happens, would you prefer to be the first to get infected or the last one standing?

First one getting infected, for sure! Last one standing...that would be f***ed.
