**Eduplay challenge** is an initiative that focuses on the possibilities with game-based learning. The main event is a 24-hour hackathon that invites teachers, developers, and creatives to join together in multi-creative teams to design games. The challenge is to make a creative game solution in answer to some of the learning goals presented at the event.

The initiator Jan Bidner visits Umeå Institute of Design to talk about game-based learning and the event with its agenda, guests, and presenters. He wants to inspire and direct an invitation to those of you who love games to join in. You can read more at [http://www.eduplaychallenge.org/?lang=en_us](http://www.eduplaychallenge.org/?lang=en_us)

**Entreprenom – Develop an idea in a creative environment!**

Entreprenom is a workshop series for students at Umeå University. The participants will get to attend inspiring lectures, get useful expertise, and feedback on the idea they choose to work with during the 7 workshops. The students will be divided into groups from different programs and with different experiences to get the creativity flowing. Entrepreneurs and experts from local businesses in Umeå will attend the workshops, which each have a different theme. Entreprenom will get to use the new facilities at Sliperiet with the possibility to use 3D printers, CNC, and other fabricating machines. And also – the winning group get a prize of 6000kr!
